Keeping Yourself Well

THE DAY OF WEAKNESS After you have had a trying experience, or worn yourself out with an unusually hard day's work, your body is not in shape to resist disease. Its vitality is lowered, and the forces that re-

sist infection are lacking in power. Certain infections are always

present. One of the worst o these is that of influenza. If your strength is lowered, it is likely to strength is lowered, it is likely to effect a lodgment, and no man can ever foretell what this will lead to. For such periods of weakness you need a good tonic. Your heart should be strengthened, your circulation made more vigorous, your digestion toned up. The tonic that many thousands have found most satisfactory is Peruna. It has been used as often to ward off illnesses as to overcome them.

In the tablet form you may carry it with you, using it whenever you realize you are not up to full physical power. It's better to prevent than to be ill, and for such conditions Peruna is heartly recommended by thousands.
